Examiner: Ken Horlick

TITLE: TWO-DIMENSIONAL LINKAGE STUDY METHODS AND RELATED INVENTIONS

Commissioner for Patents
Fax number: 571-273-8300

ADDITIONAL REMARKS TO ACCOMPANY THE RECENTLY FILED SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner:

Consideration of the following additional remarks to accompany the recently filed (11/17/05) Supplemental Information Disclosure Statement is respectfully solicited prior to examination.

The recently filed Remarks Accompanying the Supplemental Information Disclosure Statement and accompanying Declaration of inventor R. E. McGinnis (both filed November 17, 2005) included a list of priority applications for the present application (10/037718). The applicants did, however, inadvertently omit one priority application from the list. The specific application inadvertently omitted is Provisional application 60/326,331 filed October 1, 2001. The specification of the present application was amended on Oct. 1, 2002 (after the filing date of Jan. 4, 2002) to include Provisional application 60/326,331 as a priority application for the present application. This additional information is given in an abundance of caution under 37 C.F.R. 1.56; and applicants respectfully request the Examiner to consider this additional information.

Respectfully Submitted,

Robert O. McGinnis, Reg. No. 44, 232
Ph 406-522-9355, Submitted today, November 30, 2005
